**Reflections**  
of Nature

## BY THE EDITOR **2022**

After a period in which the feelings of uncertainty and anxiety guide our choices in almost every field, we welcome the new season with a trend of liberation dominated by feelings of trust and peace. We focus on a long-term recovery process, slowly leaving behind unexpected crises, emergency measures and panic. Accordingly, our changing living habits lead us to different tendencies in our homes, which have now become the center of our social lives. Decorative setups inspired by the healing power of nature and conscious choices gain importance.

Sustainable material, form and style combinations, which are on the rise with the tendency to protect and evaluate the existing, lead us to invest in the personal values of designs that will be passed down from generation to generation. While the increasing need for versatile use in interiors points to a function-oriented simplification with flexible arrangements that allow free movement in homes, natural colour palettes emphasize the serene and peaceful atmosphere we are looking for. Material combinations inspired by the multi-layered aesthetics of nature create timeless styles with quality details. Differentiating and personalized with eclectic arrangements, decorations give life to original, creative and liveable homes that we will enjoy being in.

In the new season of Enza Home, designs that focus on making our homes comfortable, energetic and more liveable meet you in a wide range of options from soft forms to clear lines, from neutral colour transitions to striking contrasts and from dramatic setups characterized by artisanal details to the plain elegance of contemporary design.

Enza Home Collections, designed by considering contemporary living scenarios, different personal tastes and versatile usage possibilities in the light of this new home concept that differentiates with changing habits, are now waiting for you on the p.s of Enza Home Book.

## 2022 TREND SCOPE

### PERSONALIZED SPACES WITH VERSATILE FUNCTIONS AND AESTHETIC TOUCHES

SIRONA Dining Room p. 32

■ As our needs for trust, peace and foresight have increased recently the change in lifestyles continues to meet with the differing decoration needs in interiors, which have become the new center of social life. Accordingly, Enza Home Collections, which aim to create versatile and flexible decorations in homes that are no longer just areas of comfort, transform living spaces with natural, aesthetic, functional and sophisticated touches.

While new generation designs focused on increased comfort and function respond to the increasing need for movement in interiors, natural colour palettes, which stand out with their combination of quality materials, give life to peaceful and sheltered spaces that improve mood. Reinterpreting the strong style codes of the past with a modern and

innovative design approach in line with the requirements of contemporary life, Enza Home creates timeless styles with high personal value, with quality material selections and artisanal touches.

Modular designs that create versatile movement areas with flexible usage advantages adapt perfectly to personal needs, while multi-layered combinations with rich colour and form add different identities to spaces.

Creative interpretations of plain and clear lines create serene and fluid atmospheres that do not compromise on aesthetics. Eclectic touches, characterized by creative arrangements, bring the vitality of life to interiors. Standing out with their classical design details, the pieces turn living spaces into living works of art with their nostalgic elegance.

# New Core of Life

The importance of turning living spaces into comfortable, positive and liveable places is increasing day by day in recent years, when the time we spend at home has increased, as we have had to move away from social life. Houses are now the new cores of life as they sometimes turn into an office, a school, a fun playground or a pleasant socializing environment to spend with friends.

# MEETING POINT

In this context, products with increased comfort in decoration, modular designs that provide free movement areas, and colour and form preferences that support the feeling of comfort and belonging at home come to the fore. While the importance of comfort and ergonomics increases, especially in living areas, plain forms enriched with the use of quality materials visually support the rising trend of rest and relaxation.

While the calm colour palettes inspired by the healing power of nature create a peaceful atmosphere where we can enjoy spending time, the sophisticated notes of blue and grey are reuniting us with our roots in nature by giving life to a simple and qualified lifestyle with natural materials such as wood, glass and metal.

Modular and mobile furniture are giving us the rich and versatile movement areas we need by responding to different usage needs and allowing us to use living spaces in different styles and identities.

Multifaceted  
**Decoration**  
with Contemporary

Our homes are no longer just a comfort area that meets the need for rest and renewal, but also turned into working, socializing, training and exercise areas. In the wake of these new life trends required by the circumstances, almost all the elements that make up the home decoration continue to be shaped according to these versatile usage needs.

**SIRONA Storage TV Unit**

In addition to their aesthetic richness and sustainable material use, designs with high functionality with their modular diversity appear as the new stars of this radical change in living spaces. These new generation designs,

which can adapt perfectly to different usage needs and areas, are giving spaces a free, flexible and multi-purpose identity by creating customized living spaces for range of motion.

**SIRONA**  
TV Unit

Complementing its classic design approach with a modern style, Sirona TV bench responds to different usage needs. It offers the opportunity to create various visual combinations with upper module alternatives compatible with the TV bench.

**SIRONA**  
High Base TV Unit

Offering a wide area of use with its high TV bench alternative, Sirona High Base TV Unit and library application create a refined atmosphere.

**SIRONA**  
Maxi Bookshelf

MDF body and doors with a unique walnut and anthracite colour combination add a noble atmosphere to the design of Sirona Bookshelf. In its modular design, metal details in aged gold colour reveal a plain and rich style.

**SIRONA**  
Midi Bookshelf

Adding a rich ambiance to your living space with its unique design, Sirona Bookshelf creates innovative spaces with its versatile details.

# Multidimensional Transformation in Living Spaces

Natural, free and dynamic curves are creating a highly attractive form revolution in the new season. Curvy and multidimensional furniture and accessories that come to the fore in the design world day by day, bring a creative, fun and fluid identity to living spaces in line with this new trend.

This new generation setup, which manifests itself in a wide range from furniture to accessories, from walls to lighting designs, carries the transformative effect of forms into living spaces with retro, vintage, modern or futuristic approach. Dimensional forms, perfectly accompanied by extraordinary color combinations, challenge the uniformity of spaces in creative ways.

## Very Peri

# Bold Shade of the Future

Exactly 23 years after the color of the year tradition was launched, Pantone has created a brand new color for the first time that is a bold and creative response to the era of transformation shaped by changing possibilities. Combining the carefree optimism of blue tones with warm and lively violet-red notes, Very Peri brings a distinctive perspective to modern decoration with the empowering effect of innovation.

Emphasizing concepts such as self-confidence, curiosity and courage, accompanied by contemporary designs, this visionary color carries the bold attitude of creative expression to living spaces with dynamic and eye-catching touches in the new season.

# PRAISING THE SUN

When the longing for nature has been on the rise, decoration setups that tend towards peace, comfort and vitality bring the dynamic reflections of vitality to interiors with striking color palettes. The positive reflections of the yellow, represents the bright warmth of the sun, aim to increase the life energy in every area where it is used.

Adding a versatile depth to spaces, the vibrant notes of yellow, which catches a flawless flow with the round forms of the new season, accompany grey, one of this year's pantone colors, with its high energy, and illuminate living spaces.

# Contemporary Lifestyles

The new generation designs, fed by the rich reflections of the combination of materials, forms and colors, give life to a timeless aesthetic understanding in the season. The rich materials of nature create a sincere and refined identity in living spaces with layered geometric forms.

Wooden textures that meet with metal details add a completely different dimension to the refraction of light in space with layered geometric lines, creating contemporary setups with aesthetic depth.

## MODERN AND RICH SETUP

Bringing rich material combinations together with modern lines, **GIORNO DINING ROOM** represents a new generation aesthetic understanding in decoration. While balancing the warm and strong effect of wood with stylish metal design details, it adds a refined touch to living spaces with its marble-like surface applications. Standing out with its modern handle and foot design, GIORNO DINING ROOM creates contemporary spaces that are strengthened by the timeless stance of natural walnut colour.

When properly used, lighting designs with their ability to deliver us the desired effect in the decoration, are indispensable for a room no matter by what style it is decorated.

With the unlimited variety of forms and materials due to the changing trends, the pendant and floorlamps that come to the forefront in the new season, are ready to be the star of your decoration.

# How to find the best lighting?

In a room, the decision of which floorlamp or pendant lamp should be used depends on physical conditions of the room as well as decoration style. It is important to choose lighting designs correctly according to both general decoration style and the needs of light in that space.

Here are some tips for choosing the right lighting that you need...

- Using different kind of lighting designs together, such as pendant and floorlamp, that meets the needs of light of the different angles of the room, will be an effective solution.
- Using floorlamps in rooms with low ceiling instead of pendants will prevent the low and depressive appearance. In addition, choosing a light design that is relaxing and eye friendly, will allow you to create a peaceful and calm ambiance.

21. APERTURE 22. CAPSUL 23. MIMOSA 24. CASTEL 25. RATTAN

- You can use pendant lamp designs without any problem in large areas such as living rooms with standard or above standard height ceiling. You can easily eliminate the need of light in a stylish way with the pendant lamp that you choose based on the size of the room.
- Multi-pendant lamps that are being used especially over the tables are one of the most popular designs of the new season. The most important point of this implementation is to be aware of designs that are used together whether complementary to each other or not in terms of their colour, material and style.
- If you have small squared living space due to physical conditions for instance, you can use dimmer switch that allows you to control the intensity of light. Thereby, with a single lighting design you can create many different ambiances.
- Sometimes single pendant may be insufficient to meet the lighting needs of a room. In such cases, you can use floorlamps in different sizes at different point of the room alongside with the pendants. Thereby, not only you can expand your lighting options, also you can add elegant details to your decoration.

# Sleeping

## PLEASURE ON THE SOFA

The sweetest sleep is the one that comes when relaxing or watching TV on a sofa. It is the sense of freedom that comes with a little rebellion, which is against the obligation of going to bed or sometimes it is a way of sleeping which gives more pleasure than sleeping in the bed.

Sometimes it is a hospitable alternative for a guest and sometimes it is the luxurious relaxing place for a tired body.

# Light of Sleep

Lamps, the irreplaceable elements of bedrooms, besides being a dim and relaxing light source for the general ambiance of the bedroom, are becoming one of the most important elements of the decoration in the way of new trends with their innovative materials. So what are the key points of choosing a lamp for bedrooms?

USB input on lower table

1. Choose a lamp that will go well with the dominating colour of your bedroom.

If you want to underline the source of light in your bedroom, you should prefer remarkable colours. For more neutral effect, a lamp with a soft colour is ideal.

2. Shiny metals for a modern and effective ambiance.

Lamps, which take their place in the new season in a wide range of colours from copper red to silver, is adding a modern and stylish touch to living spaces.

3. Earth shades with warm and cozy effects

Lamps with dynamic earth shades are making the light to spread into the room with much softer and warmer effect.

4. Contemporary and outstanding ambiance with industrial designs

You can create an attractive ambiance by using trending industrial designs of the new season, in which natural wood and metal come together.

# INNOVATIVE HYBRID Technologies

Offering a unique sleeping experience with its innovative and pioneering design quality since its foundation, **YATAŞ BEDDING** offers seamless sleeping with **HYBRID SERIES** mattresses made up of various combinations of spring, visco, foam and fabric technologies which are suitable for every kind of body type and personal comfort needs by taking advantage of the latest technological developments. Usage of many different advanced technologies in the mattresses of **YATAŞ HYBRID SERIES**, helps to protect the spine's natural curves overnight while perfectly complementing the contemporary design world of **ENZA HOME** which promises a unique visuality, functionality and comfort. We examined 5 mattresses within the **HYBRID SERIES** collection of Yataş Bedding, number one mattress brand of Turkey, that offers a unique experience of sleeping where the mental and spiritual renewal needs of the body is fulfilled.

**1 FIVE-Z MATTRESS**

Produced by space technology, the 60 DNS visco elastic pads that are used on both surfaces of the mattress speed up blood circulation and end tired awakening. The 5-zone pocket spring system located at the center of the mattress provides special support to 5 different areas of the body which provides the custom fit to your body structure.

**2 PRESTIGE PRIME**

Full HD side support springs provide equal comfort throughout the Prestige Prime. Thanks to Monoblock Solid Core technology, it supports the back and waist in the most accurate way and does not lose its form for years. Alpaca wool fabric on its winter surface creates a warm sleeping environment with its soft touch, while the knitted fabric containing silk fibers used on the summer side has a cooling effect in summer.

**3 SMART TRACK MATTRESS**

With the world's first memory-based spring system Memory Coil in the Smart Track mattress, your mattress gets more air and prevents unwanted springs. It fully responds to the convex points of the body such as head, neck, waist, and hip, and reacts instantly to body movements.

**4 AQUA NOVA**

The Aqua Nova mattress, which maintains its form like the first day for many years with the Yataş-exclusive DHT spring system, wraps your body with UltraWaist technology that provides special support to the waist and hip area. It provides extra comfort with its double-sided smart sleeping pad with two different hardness levels. Thanks to its FeranIce® technology, the Aqua Nova mattress stabilizes your body temperature while you sleep, allowing you to sleep comfortably throughout the night.

**5 SUPPORT LINE MATTRESS**

The main feature of the Support Line mattress is the S-Line Spring System. The S-Line Spring System, which consists of double-layer packed steel springs, has a layout that follows the body's spine curve. In this way, it keeps the pressure on the head, neck and back area at a minimum level and increases the sleep quality while reducing rotational movements.

### Head and Neck Pain

It prevents head and neck pain as well as tension in the neck muscles with its spine-friendly structure.

### Waist and Spine Support

It maintains the body's natural spine curve and prevents specific spine distortions and low back pain by applying special support to each body type.

### Muscle Protection

Thanks to the pressure it exerts on the body, it positively affects your sleep position and prevents stretching the muscles.

### Circulation Problems

It adapts to body movements during sleep and has a positive effect on blood circulation with the effect of pressure.

### Back Pain

With its advanced design, it maintains the natural S position of the spine curve and provides correct support while preventing the occurrence of waist and back pain.

### Hip and Joint Pain

It provides special support to the hip region, which is the most sensitive part of the spine, and prevents the occurrence of hip and joint pain.

Find the best mattress for you easily with the  
**Perfect Mattress Search System**

Unconscious and trial-and-error mattress choices affect sleep quality and human well-being. In order to prevent all these negativities, we have prepared Smart Match Mattress Finding Analysis with algorithms which are the result of detailed researches carried out by Yataş Sleeping Laboratories. The Smart Match application allows you to easily find the right mattress for yourself by evaluating your specific information and sleeping needs.

**Gender**

Even if the height and weight measurements are the same, the body structure, weight distribution and spine patterns of men and women are different. For this reason, although the mattresses are designed as unisex, the most accurate analysis is structured with the knowledge of gender.

**Age**

Age changes the need for support of the spine, independently of height, and weight.

**Sleep Position**

Mattresses have different adaptability according to sleeping position. Therefore, sleep position information is a very important parameter for mattress-body mapping.

**Height - Weight**

Stature changes the pressure applied to the mattress. It directly affects the support that the mattress gives to the spine. Weight is an important parameter that determines how much support the mattress should provide for the correct spinal position.

**Pain Area (if any)**

The pain felt during sleep decreases the quality of sleep, while the pain felt after sleep reduces the quality of life. To reduce pain, a body-compatible mattress should be selected.

**Sweating Problem (if any)**

Mattresses that absorb moisture from sweating and remove from the body, and dry up quickly and reduce the feeling of wetness, help to increase sleep quality.

**Allergy Risk (if any)**

If you feel nasal obstruction or pruritus irrespective of the season, you may have dust mite allergy. It is recommended that asthma patients choose mattress that provide protection against dust mites.

After you answer the questions in a complete and correct way, you will be ready to meet with Yataş sleep with the results that will be sent to your e-mail address.

Visit [www.yatasbedding.com](http://www.yatasbedding.com) and discover the best mattress options for you with **Smart Match**.

**ORTHOPEDIC SUPPORT**

**Orthopedic Support** mattress, specially developed with Propocket 2.1 spring technology exclusive to Yataş to provide the most accurate support for your back and waist area, is ideal for those who prefer a firm mattress. Orthopedic Support provides the right support by holding your body perfectly. While the surface of the mattress hardens, there is no deterioration in its orthopedic structure. With the zoned body suspension system VZS™, it reduces your fatigue by giving the necessary support to your shoulders, hips and joints.

**MOVE UP TETRA ADJUSTABLE BASE**

A new generation technology product that maximizes mattress comfort: **Move Up Tetra**. With its special motor system that provides movement from 4 different areas, the Move Up Tetra movable bed base also allows many different uses beyond the comfort of the mattress.

**PURE SERIES ORGANICA BABY MATTRESS**

Organica, one of Yataş's mattresses with natural materials that are beneficial for baby health, contains coconut fiber, cotton, latex and wool. Providing the right spine support with coconut fiber, cotton, air permeable Latex and certified Woolmark® natural wool, Organica is the ideal mattress choice for the high quality and perfect sleep you want for your baby.

**Cooling Technology Exclusive For Yataş: COPPER COOL**

Developed based on the natural properties of the copper element, Copper Cool technology helps to reduce sweating by allowing body heat to disperse on the mattress surface with the copper molecules it contains, while shortening the time to fall asleep. Thus, it provides a more restful and comfortable sleep experience.

**FLEXBED**

Flexbed is a special design for people who have frequent overnight guests or for those living in confined spaces. It takes up little space with its folding steel bedspring and it is easily transportable anywhere thanks to its wheels. With the DHT spring system standing out for its durability, an anti-allergic Fresche technology fabric which prevents bad odour formation and its foldable mattress, Flexbed is a solution that makes life easier which you may use for a long time.

## Cool and Uninterrupted Sleep Cool & Wool

Combining Yataş's experience in mattress production with technology and innovation, Cool & Wool Mattress creates a spacious and uninterrupted sleep environment by distributing body heat to the mattress surface, thanks to the copper molecules contained in Yataş's exclusive Copper Cool technology. The natural Woolmark® wool on the other surface offers you a warm and healthy sleep environment during winter.

### Yataş Exclusive Cooling Technology Copper Cool Technology

Developed based on the natural properties of the copper element, Copper Cool technology helps to reduce sweating by allowing body heat to disperse on the mattress surface with the copper molecules it contains, while shortening the time to fall asleep. Thus, it provides a more restful and comfortable sleep experience.

### Variable Zone Body Suspension System VZS™

Variable zone body suspension system of the Cool & Wool mattress offers high comfort while providing appropriate support to the body. It makes you feel less pressured on convex points such as shoulders, hips and joints.

### Perfect Support of Your Body 5-Zone Pocket Spring System

## *Personal Shrines of Urban Life*

As a result of the versatile needs and habits of city life, the number of our clothes and personal accessories, which are diversified day by day, has also started to increase. In this direction, wardrobes, which are squeezed into bedrooms as functional decorative items continue to be included in our lives by transforming into dressing rooms as a separate living space.

Emerging as a decorative response to our increasing needs in this area, dressing room designs, which make everyday life easier with solutions aiming at maximum functionality, redefine the urban decoration style with design advantages that provide a perfect layout.

# Invitation to Sleep

Sleep covers nearly one third of human life, the body repairs itself and stores the required energy through this regenerative process. As well as the process itself, sleeping conditions and how well you sleep are the most important factors that determine the quality of sleep and body regeneration.

**YATAŞ** shapes the **White Bedding Products** with its innovative design approach and invites you to a healthy, uninterrupted and qualitative sleep experience. This includes standard designs that do not compromise quality, with durability, offering Dacron® products and the therapeutic medical series.

# WHICH PILLOW?

Picking the correct pillow is one of the most important factors of experiencing the true effects of a rejuvenating and refreshing sleep. If you don't have a suitable pillow for your body's needs, you haven't yet experienced a quality sleep. Is your pillow actually the right one for you? In order to find out now, take a look at our quiz that will introduce you to your pillow of true sleep experience!

# FOUR SEASON QUILT

One of the most important factors determining sleep health is keeping body temperature in balance. In order to provide the ideal sleep temperature, which varies according to the external conditions, the choice of duvet in accordance with changing seasonal temperatures and personal preferences is a must for an excellent sleeping experience. Yataş quilts that offer solutions according to changing seasonal conditions with high technology filling materials guarantee the most comfortable state of sleep with the options that provide maximum adaptation to personal needs.

## SUMMER QUILT

### Dacron® Climarelle® Cool Quilt

It keeps your body temperature constant during the temperature changes between cool nights and hot mornings in summer. Blue interlining is a special primer produced with micro-capsule technology that creates air conditioning effect. It provides a balanced sleep with its cooling effect and heat transfer.

## WINTER QUILT

### Superwashed Wool Quilt

It is an ideal choice for winter quilts with natural wool filling material that prevents heat loss. Yataş Superwashed Comforter combines Woolmark approved wool naturalness with its washable feature.

## 4-SEASON QUILT

### Dacron® Microfiber Quallofil® Air 4-Season Quilt

Dacron® Quallofil® fiber contains 33% air. Special fibers create a pleasant microclimate all night long by reducing moisture build-up while air circulation is performed. It is suitable for use in 4 seasons thanks to this special structure.

Climarelle® is a soft stretch liner with a high-tech microcapsule. Since microcapsules are on the surface of the lining, they adapt quickly to temperature changes. The filling fibers of this product consist of very thin and very light fibers which are specially combined to provide maximum comfort with minimum weight.

Wool fiber products provide natural thermal insulation. They are moisture-retaining, healthy and non-allergic and have a natural spring effect. Due to special treatments, Yataş Superwashed wool products are washable and lint-free.

If the fiber is hollow just like a pipe, it is called a spongy fiber. Quallofil® Air has a single hole but is so large that there is a 33% air gap. This makes the quilt very light and airy.

The image shows a close-up, low-angle shot of a building's facade. The facade is made of dark grey, textured panels. On the left, there is a blue logo consisting of two stylized, interlocking shapes. To the right of the logo, the words "enzaHOME" are mounted on the wall in large, white, three-dimensional letters. The letters are arranged in a slightly curved path following the angle of the building. The background is a bright blue sky with scattered white clouds.
